Globular Health Initiative

Globular Health Initiative

Visi

Menjadi jembatan pembangunan kesehatan Indonesia secara komprehensif, kolaboratif, dan kontinu.

Misi

Menjadikan Globular sebagai sumber informasi terpercaya yang menawarkan perspektif global mengenai masalah-masalah kesehatan di Indonesia

Mengadakan kegiatan-kegiatan pengembangan kapabilitas, edukatif, dan strategis sesuai kebutuhan masyarakat

Membangun relasi dan kerja sama dengan individu/ organisasi/ lembaga terkait pembangunan kesehatan

Globular Health Initiative

Climate Change

“ Climate change is the biggest global health threat of 21st Century. Climate change will have its greatest impact on those who already the poorest in the world: it will deepen inequities and the effects of global warming will shape the future of health among all peoples

The Lancet, May 2009

Globular Health Initiative

“

When climate change is framed as a health issue, rather than purely as an environmental, economic, or technological challenge, it becomes clear that we are facing a predicament that strikes at the heart of humanity.

Helena Wang, Richard Horton.

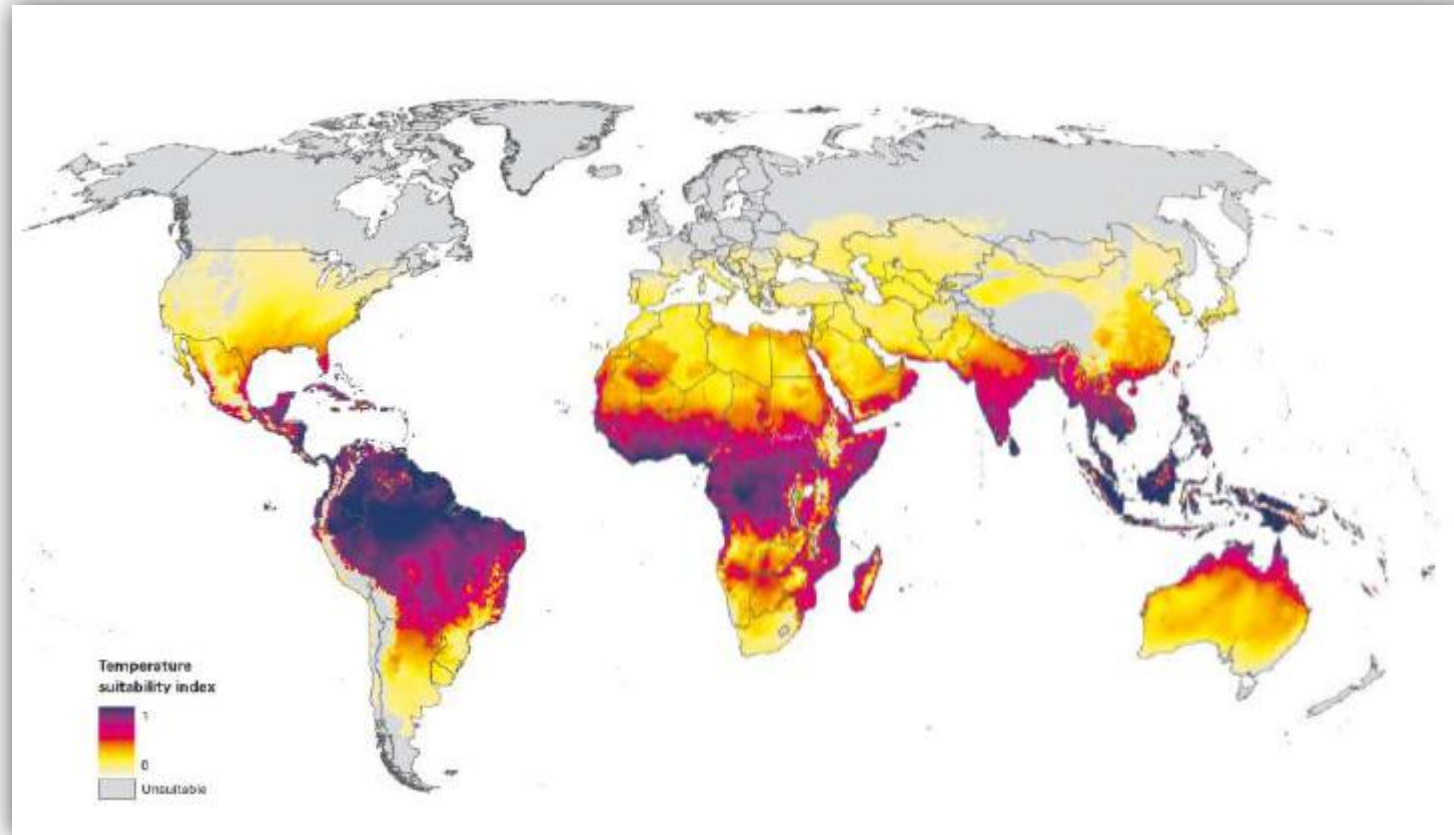

“Tackling climate change: the greatest opportunity for global health.” - The Lancet, June 2015.
