KEGIATAN PAVILIUN INDONESIA COP25

TANTANGAN

- ❑ Waktu efektif persiapan yang relatif singkat dikarenakan 2 hal, yaitu: 1) banyak pihak yang menunggu perubahan kabinet pemerintah yang diumumkan pada minggu keempat Oktober 2019; dan 2) perubahan lokasi COP-25 UNFCCC dari Santiago, Chili ke Madrid, Spanyol, yang diputuskan pada awal November 2019.
- ❑ Respon yang sangat lambat dari para pihak terkait kegiatan Paviliun Indonesia COP-25. Pertemuan perdana diadakan pada 22 Juli 2019, namun, sekitar 60% partisipan baru mengajukan proposal pada awal November 2019 dan bahkan sekitar 10% baru mengajukan pada pertengahan November 2019.
- ❑ Terdapat beberapa delegasi Indonesia yang hanya menghadiri Paviliun Indonesia dan tidak paham mengenai kegiatan yang dilakukan di COP-25 UNFCCC di Madrid, Spanyol dan ingin mengetahui proses dan kemajuan negosiasi yang sedang berlangsung.

LANGKAH KE DEPAN

- ❖ COP-26 UNFCCC akan diadakan di Glasgow, Inggris pada 9-19 November 2019, untuk itu panitia penyelenggara Paviliun Indonesia COP-26 UNFCCC diusulkan untuk dibentuk pada Februari 2020.
- ❖ Pertunjukan seni dan budaya dan penyajian makanan tradisional Indonesia akan berlanjut dan menjadi "magnet" utama untuk menarik pengunjung ke Paviliun Indonesia.
- ❖ Untuk meningkatkan pemahaman delegasi tentang proses negosiasi yang terjadi dalam kegiatan UNFCCC COP-26, maka diusulkan agar Paviliun Indonesia bekerja bersama dengan Sekretariat Delegasi Indonesia untuk melaksanakan 2 (dua) kegiatan baru, yaitu: (1) Sosialisasi Pengembangan Negosiasi, diadakan setiap pagi dalam acara 30 menit, untuk menginformasikan perkembangan terbaru dari proses negosiasi dan bukan untuk tujuan forum diskusi; dan (2) Tur Negosiasi, diadakan 1 (satu) kali sehari untuk menjelaskan alur, proses dan lokasi negosiasi yang sedang berlangsung.

Muchas Gracias
